BILL SCOTT & SONS

Avant Garde Styling - Traditional Craftsmanship

Scott is a specialist dental refurbishment company...

Bill Scott & Sons was established in 1958 and is a member of the British Dental Trade Association. Over the years we have refurbished almost 3,000 surgeries and built over 650 self contained mobile clinics, mostly dental.

Scott are appointed dealers for Belmont, and also supply a wide range of associated dental surgery equipment to give you the reliable facilities you need at an affordable price.

Scott's service is comprehensive

We...

- listen to your requirements and preferences
- assist with design & planning of your surgery
- alter electrical services, drainage and plumbing
- lay new flooring, including vinyl sheet and tiles
- provide a nationwide service
- organise painting and decorating, if required
- advise on use and maintenance of your new surgery

*For further information or to arrange a meeting, please contact
Mr Stuart Scott ☎ 01723 363225*

State of the Art Equipment at Affordable Prices

Scott Avant Garde surgery furniture features...

- **Sturdy MDF construction** (*no chipboard is used*)
- **Made to order to fit your room dimensions**
- **Dovetailed drawers in mahogany plywood, sealed & polished**
- **Great choice of strong plastic drawer organisers**
- **Choose from our Avant Garde Colour Range**
- **Highest quality hinges & fittings**

 Takara Belmont produce very reliable, Japanese-made equipment which requires very little maintenance and is easy to service. Their stylish and robust chairs are hydraulic and the dental delivery units work on dependable pneumatic technology.

Choice of Belmont concept packages includes:

- Voyager 2L left/right handed system
Ambidextrous and excellent value
- Clesta with arm or cart delivery system
Solid, durable build quality - made to last
- Cleo Sp folding leg/knee brake chair
Ideal for the elderly or disabled patient
- Progia over the patient Euro whip arm system
The quickest and easiest delivery system to use
- Progia cart delivery system (*Special Order*)
Top quality with many extras as standard

The complete range of Belmont equipment is available at competitive rates.

BILL SCOTT & SONS

Equipment & Fittings to Suit Your Needs...

Scott are agents for a wide range of dental surgery equipment and are pleased to offer advice on the suitability of different makes of equipment to meet your exact requirements.

We are able to build-in fibre optics, ultrasonic scalers and curing lights into most makes of dental delivery unit. Prices are available for many small appliances such as amalgam mixers, ultrasonic baths, curing lights etc.

Hand pieces and scalers

Special Offers are often available on hand pieces, scalers and instruments from leading manufacturers.

Aspiration

Choosing an aspiration system requires several, sometimes complex, considerations. Many different machines are available and we can offer expert advice on which is the right model for you.

X-ray equipment

In our experience, the quality of different X-ray machines varies enormously - we only recommend models with excellent build quality that represent best value for your money.

Scott manufacture x-ray shielding panels to order, and also carry out NRPB assessments and testing on new and used machines.

Compressors

Oil free machines are now very popular as they remove the risk of oil contamination. Oil lubricated compressors are quieter, however a breathing air filter should always be fitted.

Autoclaves

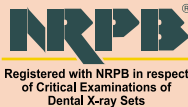

Contact Scott for a quotation for the most reliable autoclave available in Britain today.

Reception Counters

Would you prefer a traditional or modern counter? We use Oak, Ash, Mahogany and Beech for traditional counters and materials like Corian, laminate and stainless steel for the modern styles. They are all made to order to suit your waiting room and design requirements.

Laboratory Benching

We are pleased to advise on laboratory layout and are able to build cabinets to suit individual customers needs and equipment. Worksurfaces available include high pressure laminate and stainless steel.
